

## SERENGETI EXTENSION:

---

### *About the Tour*

The Serengeti, together with Kenya's Masai Mara Game Park form Africa's most famous wildlife park. The image of acacia trees on an endless grass plain epitomizes Africa for many. Unlike the southern plains of the Serengeti that dry out, forcing all but the hardiest of species to leave, the Northern Serengeti remains lush and green throughout the year.

The annual wildebeest migration through the Serengeti and the Maasai Mara is the largest mass movement of land mammals on the planet – with more than a million animals following the rains. From July through to October the Migration is in the Northern Serengeti and this is where many of the most famous scenes of the Migration occur with almost daily crossings of the Mara River.

But that is not where the game viewing ends; large prides of lions, elephants and giraffes in grasslands, gazelles and eland to mention but a few. Come join us on this once in a lifetime experience to witness these majestic animals in their natural habitat.
