

Passport & Health Guidelines for Kenya

Documentation

Passport

Travelers to Kenya should ensure that the validity of their passports extends at least 6 months beyond the end of their intended stay, and should have at least 2 unstamped visa pages in their passport to enter the country. Please note that the last 2 amendment pages will not be accepted for visas and immigration stamps.

Visa

In order to enter into Kenya, citizens from many countries will need to acquire an e-tourist visa 60 to 30 days prior to arrival. Please note that the visa will become valid for 90 days upon the date it was issued. As such, it should not be applied for too early, but also allow for enough time for processing.

Please see the following steps to apply for a tourist visa:

1. Click register on <http://evisa.go.ke/evisa.html>
2. Select "create an account" to create your account (you will need your passport number for this)
3. Once logged in, select Department of Immigration Services
4. Select "submit application"
5. Select "Kenyan visa"
6. Select the type of visa (tourist visa) and read the instructions carefully
7. Fill in the application form
8. Pay using a Visa, MasterCard or other debit cards
9. Await an approval email, then download and print your e-visa from your e-Citizen account
10. Present your printed eVisa to the immigration officer at the port of entry. Note: You will be required to show a hard copy of your visa as a PDF upon arrival

Other Documentation

In case of emergency, it is advised to record important information on one sheet of paper, photocopy it, and distribute a few copies in your luggage, money belt, and amongst relatives or friends at home. An email copy should also be sent to yourself.

Please see the following documents you should have printed and emailed to yourself:

- A photocopy of your passport
- COVID-19 Vaccination Card; both the original copy and a photocopy
- International flight itinerary or e-tickets
- E-Visa; both a printed copy and electronically
- Travel insurance policy details and 24-hour emergency number
- Details of relatives/friends and your primary care physician to be contacted in an emergency

COVID-19 & Other Immunizations

Kenya COVID-19 Entry Requirements

As COVID is continually evolving, please check the [Online Trip Portal](#) for the most up to date information regarding entry requirements and health and safety precautions.

Prior to arrival, travelers must register and submit an International Travelers Health Surveillance Form online (please see [here](#)), prior to departure and present the QR code to your airline before flying. It is recommended that this form is submitted 24 hours before arrival in case travelers are unable to connect to the internet upon arrival. The QR code should also be printed and saved on the traveler's mobile phone.

Travelers must register for the [Trusted Travel Code](#) to have your PCR test results verified. You can create an account and upload your test results as well as your COVID vaccine card through this link.

Other Immunizations

Prior to travel, it is strongly encouraged that you look into recommended immunizations for your time in Kenya. As the END Fund is not a licensed Health Care provider, we cannot advise travelers on which immunizations they may need. Therefore, we recommend that all travelers:

- a. Consult with your personal physician regarding immunizations and other precautions that may be needed in order to participate in this journey. Please note that some vaccinations require time to take effect and may need time between a series of shots.
- b. Visit the [CDC Website for Kenya](#) to view recommended vaccines and medicines, travel health notices for the region, and other tips for staying healthy and safe.
